

Resolution #607

**A RESOLUTION OF THE TOWN COUNCIL OF THE TOWN OF YACOLT,
WASHINGTON, ESTABLISHING INTERIM REGULATIONS FOR BUILDING AND
CONSTRUCTION ACTIVITIES; DESIGNATING THE TOWN'S BUILDING
OFFICIAL; DESCRIBING THE LIMITED AUTHORITY OF THE BUILDING
OFFICIAL TO APPROVE BUILDING PERMIT APPLICATIONS; REPEALING
RESOLUTIONS #553, #581, AND #587; AND PROVIDING FOR AN EFFECTIVE DATE**

Whereas, the Town of Yacolt, (hereafter "*Town*" or "*Yacolt*"), is required by the Washington State Building Code Act (RCW 19.27) to enforce building codes and laws as specified in that Act;

Whereas, the Washington State Building Code Act applies to the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, removal and demolition of any building or structure, unless exempt under the State Building Code or local authority;

Whereas, the Town Council's goal and policy is to provide an efficient procedure for regulating building activities while collecting fees from applicants for only the reasonable and actual costs of processing applications and building permits as allowed by RCW 82.02.020 and RCW 19.27.100;

Whereas, the Town Council has determined that it would be unduly burdensome and technically unfeasible to attempt to create a functional schedule of fixed fees or fee formulas for different types of building activities due to the Town's small size, the irregular and unpredictable types of building permit applications received from year to year, and the large variation in application processing costs incurred by the Town even for generally similar building projects;

Whereas, the Town Council has determined that the most efficient, effective and fair way to recover allowed costs for processing building permit applications is to enter into cost recovery agreements with applicants through which the Town recovers only the Town's reasonable and actual permit processing costs as allowed by law;

Whereas, the Town Council has deemed it advisable and necessary to codify the Town's Building Department regulations as they are developed so that the content of those regulations may be readily available to the Town and to the general public;

Whereas, the Town Council finds that the public health, safety and welfare of the citizens of Yacolt will be best served by adopting the interim building regulations described herein; and,

Whereas, the Town Council of the Town of Yacolt is in regular session this 12th day of September, 2022, and all members of the Town Council have had notice of the time, place, and purpose of said regular meeting pursuant to RCW 42.30:

NOW THEREFORE, be it Resolved by the Town Council of the Town of Yacolt, Washington, as follows:

Section 1 - Adoption of Recitals. The foregoing Recitals are hereby ratified and confirmed as being true and correct and are hereby made a part of this Resolution upon adoption hereof.

Section 2 - Adoption of Interim Building Department Regulations. The Town Council hereby adopts the following rules, policies and definitions as interim regulations for the Town of Yacolt's Building Department. The interim regulations may be referred to as the "Yacolt Building Code".

Section 3 - Purpose of the Yacolt Building Code. The purpose of the Yacolt Building Code is to recognize the Town's obligation to enforce minimum requirements for the construction, alteration, removal, demolition, use, occupancy, location and maintenance of buildings and structures located within the boundaries of the Town; to authorize Yacolt's executive branch to adopt policies and procedures for processing applications; and to better communicate with the general public about the Town's obligations and procedures for Building Department activities.

Section 4 - Components of the Yacolt Building Code. The Yacolt Building Code consists of Washington State, Federal and local laws that govern the construction, alteration, removal, demolition, equipment, use and occupancy, location and maintenance of buildings and structures in the Town. ///

Section 5 – Changes to the Yacolt Building Code and Vesting of Rights.

Section 5.1 - Changes to Preemptive Authority. The list of relevant authorities and Building Code components provided in Section 4 above is not a complete list of the laws and rules that govern and influence Yacolt's Building Department procedures. In addition, the authorities listed may not represent a current list of all applicable laws and rules because the relevant statutes, codes and regulations are frequently amended and changed. The Town is obligated to enforce the laws, codes and regulations as written and as of the times they become effective. Therefore, at any given time, the Town's ordinances, resolutions, and Municipal Code may not describe a complete or current list of the laws, codes and regulations that are in effect and applicable to building activities within the Town at the time a Building Permit application is filed.

Section 5.2 - Changes to Local Authority. Whenever a reference is made in this Resolution to the Yacolt Building Code, the Yacolt Municipal Code, or to any ordinance or resolution of the Town, the reference shall include and apply to all amendments, corrections and additions heretofore, now, or hereafter made. This Subsection shall not affect the vesting rights of Building Permit applicants.

If the Building Official or Town Council is satisfied that the proposed work conforms to the requirements of the Yacolt Building Code and other applicable laws, the Building Official shall issue a permit therefor as soon as practicable.
- 8.3.4 Additional Authority of the Building Official. - 8.6.2 **Certificate of Occupancy.** A building or structure shall not be used or occupied, and no change in the existing use or occupancy classification of a building or structure or portion thereof shall be made, until the Building Official has issued a certificate of occupancy for the work.
- 8.6.3 **Building Code Violations.** The issuance of a certificate of occupancy or other final approval document shall not be construed as an approval of a violation of the provisions of the Building Code or other laws of the Town.
- 8.6.4 **Exceptions to Final Approval Requirements.** Final approvals are not required for work that is exempt from the Building Code's permitting requirements. The Building Official may determine that formal approval documents are not required for particular Building Permits if the interpretation is supported by the Building Code and the reasons for the interpretation are made part of the project file.

Section 9 - Disclaimer of the Town's Liability. This Resolution and its provisions are adopted with the express intent to protect the health, safety, and welfare of the general public, and are not intended to protect or benefit any particular individual, organization, or class of individuals or organizations. Nothing contained in this Resolution or the Yacolt Building Code is intended nor shall be construed to create or form the basis of any liability on the part of the Town of Yacolt or its officers, employees or agents for any injury or damage resulting from any action or inaction on the part of the Town related in any manner to the enforcement of the Yacolt Building Code by its officers, employees or agents. The Town is not responsible for the accuracy of preliminary or final plans or other construction documents submitted for

approval to the Building Department. The Town does not guarantee that plan review and/or inspections will detect any hazard, design defect or Building Code violation.

Section 10 - Responsibilities of Applicants. Applicants for Building Permits are responsible, without limitation, for the following:

Section 10.1 - Verification of Property Lines and Setbacks. Building Permit applicants or their authorized agent(s) shall be solely responsible for the verification of all property lines and setbacks in all cases involving new construction; a remodel or addition which would change the footprint of an existing structure; the construction of new fences or the replacement of existing fences; and all other circumstances which may impact setback requirements and/or property lines between one or more legal lots or parcels. The Building Official is authorized to require the property Owner or the property Owner's agent to provide a survey of the property by a professional land surveyor licensed by the State of Washington.

Section 10.2 - Compliance with the Building Code and Other Town Regulations. The express intent of the Town of Yacolt is that the responsibility for compliance with the provisions of the Yacolt Building Code shall rest with Building Permit applicants and their agents, and all persons and entities engaged in activities affecting buildings or structures that are subject to regulation under the Yacolt Building Code.

Section 11 - Violations. It shall be unlawful for any person, firm or corporation to erect, construct, alter, extend, repair, move, remove, demolish, use or occupy any building, structure or equipment regulated by the Yacolt Building Code, or cause the same to be done, in conflict with or in violation of any of the provisions of the Yacolt Building Code.

Section 12 - Building Code Enforcement. Building Permit applications and projects that do not conform to the standards outlined in the Yacolt Building Code shall be subject to the denial of a Building Permit, an order to stop work on the project, or the withholding of a certificate of occupancy and other approvals until the building or structure is brought into compliance. Violations of the Yacolt Building Code shall also be subject to enforcement measures described in the Yacolt Municipal Code, and to any and all other rights and remedies available to the Town under the law. Rights and remedies available to the Town for violations are cumulative and are not exclusive of any rights or remedies otherwise provided or allowed by law to the Town.
